

make a Snow Lantern

SITE

Choose an outdoor site that you can see from a window.

SNOW BASE

Make a 15" diameter base of packed snow. In the middle, make a depression to hold a candle.

LANTERN OF SNOWBALLS

Make a ring of 8-10 snowballs on the base. Place a second tier of snowballs above the first tier, resting each snowball atop the space between two of the lower snowballs. Repeat, for two more tiers. You will have four tiers of snowballs in a cylindrical formation which is open at the top.

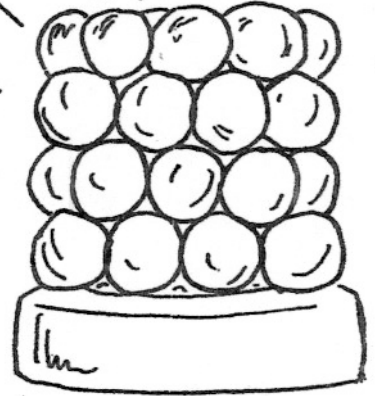

CANDLE

Place a candle in the depression in the snow base.

Wait for darkness, then light the candle. The snow lantern will glow.

Magic!
